A One-Volume, MBA-Level Course on Creating--and Implementing--Powerful Corporate and Divisional Strategy Decision makers in today`s evolving corporate environment often must formulate strategy on two different levels. Corporate-level strategies must focus on a firm`s overall goals and objectives. Corporate Strategy outlines and explains a working model for addressing the complex issues of corporate as well as divisional strategy. This straight-talking guide encompasses: \* The Strategic Planning Process \* Productivity Improvement \* Valuation of Acquisitions and Divestitures \* Restructuring for Shareholder Value For all businesses, the strategic planning process begins with executives devising strategies for growth, then managers using those strategies to approach operational issues.
