MODELS & METHODS FOR PROJECT SELECTION

Book Condition: New. Publisher/Verlag: Springer, Berlin | Concepts from Management Science, Finance and Information Technology | Models & Methods for Project Selection systematically examines in this book treatment the latest work in the field of project selection modeling. The models presented are drawn from mathematical programming, decision theory, and finance. These models are examined in two categorical streams: the management science stream and the financial model stream. The book describes the assumptions and limitations of each model and provides appropriate...
