Brand New Book ***** Print on Demand *****.Excerpt from Suggestions Concerning Checking and Tabulating Farm Management Survey Data, 1917 A survey record generally consists of estimates made by the farmer as to the details of his business for the past year. Most farmers have the details of their business sufficiently in mind to give a satisfactory record, but in some cases it requires great skill on the part of the field man in reducing his questions to the terms in which the farmer thinks in order to get trustworthy information. If a record is grossly inaccurate this fact is easily detected by the system of checking outlined below. Even if it is only slightly inaccurate this fact will usually show because of the numerous checks in the records themselves. The following is an outline of the work to be done in checking a record: 1. Compare the office sheet with the field blanks to see if all the transfers have been correctly made. 2. See if the total acres of crops, pastures, woodland, etc., equals the total farm area. 3. Examine the yields of...
