This report was written using data collected from students, teachers, and school administrators during the NAEP 1996 science assessment. It is intended primarily for policymakers, school administrators, and educators concerned with state-or school-level practices. The data provide a snapshot of current teacher practices, school policies, and student achievement that will allow comparisons to be made when the NAEP science assessment is re-administered in the year 2000 and beyond. The NAEP Science Framework The science assessment was designed to measure the content and skills described in the Science 11 Framework for the 1996 National Assessment of Educational Progress. The framework was developed in 1991 through a consensus process involving educators, policymakers, science teachers, representatives of the business community, assessment and curriculum experts, and members of the public. The project was managed by the Council of Chief State School...

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
