The Sloyd System of Wood Working

By Benjamin B. Hoffman

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 38 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 Excerpt: . . . of any model will be called the sides; the two smaller surfaces in the direction of its grain, the edges; and the two remaining surfaces, showing the ends of the fibers, will be called the ends. The expression corners will refer to the lines in which any surfaces meet. Geometrically speaking, this would be incorrect; but mechanically--that is, in the language of the shop--it is not. The woods, white birch, cherry, red oak, and white wood, will be abbreviated, W. B. , C, R. O. , W. W. Their prices are: birch, about 5 per hundred; cherry, 7 per hundred; white wood, 4 to 6. Board measure is twelve inches square (surface measure) and one inch or less in thickness. The woods can be obtained in all thicknesses up to six inches, varying in each case by one fourth of an inch in thickness. The length...

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

-- **Beverly Hoppe**

Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my father and dad suggested this ebook to discover.
